Primary Schools

Your students will learn, create and be inspired through practical sessions with a child-centered approach. We offer a range of partnership options where creativity is embedded in every subject.

How we work

We inspire and engage students and teachers to champion creativity and place it at the heart of their learning.

We co-design our programme of work with your teachers, making your partnership individual to your school!

Our work is influenced by the late educationalist Dorothy Heathcote who saw the relationships between 'expert' adults and children as a collaborative endeavour. We will support your teachers to develop pedagogy for applying creativity.

We find ways to explore career pathways, finding opportunities for your students to meet industry experts and learn about different careers.

“The activities are set at exactly the right level: varied, interesting, well-delivered, very educational. Thanks so much, I think drama can be a really powerful development tool and the Storyhouse team have done a great job. I know the school has had to pay for these so just wanted to say I think they’ve been an excellent investment.”
